AMERICA INTERPRETATION

Listen with Talk

Use the link or QR code supplied for your event to hear a live interpreter through Talk. Have the room code and headphones ready.

Checklist

- Open the event link in your browser or scan the QR code.
- Enter the room code supplied by the organizer if prompted.
- Choose your listening language and start the audio.

Common risks

- If the room is unavailable, check the code and event time with the organizer.
- If audio is silent, check headphone output and volume, then ask the host to confirm that interpretation has started.

What America Interpretation can handle

- Help plan the listening setup for the event.
- Coordinate an audio test with the host when included in the quote.

What organizers should prepare

- Send the room code, listener link and joining time to participants.
- Test the listener experience from another device before the event.
